TORIAN - Power Metal from Germany

TORIAN have been playing Power Metal with conviction since the band was founded in 2002, with both the American and European sound shaping the band's style. Coupled with indispensable furious thrash attacks, TORIAN have over the years developed their own unmistakable signature-sound and defined it more closely from album to album: Rousing, passionate Power Metal- Songs - sometimes melodic, sometimes hard-hitting - and always in search of the big chorus!

So far TORIAN have released 4 longplayers as label releases and an EP on their own. Since 2015, the band has been working on the recordings with Seeb Levermann (Orden Ogan), who has also taken the TORIAN sound to a new level in terms of production.

Accordingly, the reactions to the latest longplayer "God of Storms" were enthusiastic throughout the scene, whose quality was also honored in the trade press (e.g. 8/10 points in the German "Rock Hard"-Magazine).

Now the time has come for new recordings and Album No. 5! For this TORIAN could find a suitable partner with Massacre Records, who shares the passion with the band for Heavy Metal. The 10 songs of the upcoming album bring all strengths of TORIAN to the point: Independent, powerful, catchy. A must for every fan of melodic Power Metal!

TORIAN –by now on the road in the current line-up for more than 15 years - have gained a reputation as a sweaty and rousing live act over the years through countless shows all over Europe (e.g. with Dragonforce, Orden Ogan, Vicious Rumors, Sabaton, Helstar, Overkill, Annihilator, Iron Savior etc.)! In the end the stage is all that matters! And that's exactly why you better do not miss TORIAN's passionate Metal show!

TORIAN are ready for the next round!
